

# Family Internet Survey

As a parent you'll probably know how important the internet is to children and young people. They use it to learn, play, even socialise and express themselves in all types of creative ways. As your children move through their school life this will increasingly include sharing photos and videos, blogging, gaming, or even developing their own apps! It is a place of amazing opportunities.

The technology children use in their daily lives can seem daunting. You might worry about the risks they can face online, such as bullying, contact from strangers, as well as the possibility of access to inappropriate or illegal content.

**By completing this questionnaire you will feed directly into the Internet Safety sessions we will soon be running at our schools. We hope to help empower the children to know how to stay safe and give support to parents on how to help. We very much see this as a shared responsibility in this rapidly changing area, vital to the safeguarding of our children.**

Thank you for support,  
The Governing Body

Does your child have access to an internet enabled device?	
Does your child have their own internet enabled device?	
Does your child participate in online gaming?	
Does your child use any form of social media (Club Penguin / Minecraft, Facebook etc?)	
Do you know the minimum sign up age for common social media apps like Facebook, Twitter, Instagram, Pinterest, Snapchat and You Tube?	
Do you ask your children about their online friends?	
Do you ask your child to tell you about the sites they use?	
Do you have appropriate parental controls on your child's computer, mobile and games console?	
Have you helped your child set any profile settings to private?	
Does your child know what to do if they feel worried or concerned online?	
Do you know where to get help if you are concerned about your child?	

***Do you have any questions we might help with?***
